revalyu

Sustainability Policy

We at Revalyu Recycling (India) Ltd. aim to follow the national and international practices relevant to sustainability and ensure our practices contribute to the same.

Our company, together with all our employees, interested parties and stakeholders, safeguard the business approach based on the sustainability goals.

We shall achieve this commitment by:

- Adopting and developing innovative technologies that will contribute to sustainable development in all our business operations.
- Promoting awareness about the sustainability amongst all our employees, suppliers, customers and the society.
- Incorporating all possible work practices to ensure the sustainability throughout our entire supply chain.
- Ensuring the active participation of all the stakeholders, in the execution of the policy, considering their wishes and expectations.
- Monitoring the economic, environmental, social impacts and taking the improvement actions wherever necessary.
- Complying with all the sustainability standards and certification compliances, like ISCC, GRS, Oekotex & IMS, by maintaining the proper inventory accounts and avoiding double counting in various certification schemes.

We are responsible and accountable to adhere to this sustainability policy and continue to strengthen our systems with effective communication to all interested parties.

Makarand Kulkarni. Date: 01.09.2024
